## Breast Cancer Awareness for DLLE Extension Students

The Department of Lifelong Learning and Extension Cell had organized a seminar on “Breast Cancer Awareness” for the DLLE Extension students who have taken SWS (Status of Women in the Society) Extension project.

For the seminar DLLE cell had invite **Dr. Shraddha Deshpande M.B.B.S., M. S. (General Surgery), D. N. B. (Plastic Surgery) Wockhardt Hospitals – Mira road.** Breast cancer is a critical health issue affecting women worldwide, and awareness plays a pivotal role in prevention and early detection. This report aims to provide college students with essential information on breast cancer, emphasizing the importance of awareness, early detection, and support.

Breast cancer is the most common cancer among women globally, and it can also affect men, though at a lower rate. The impact of breast cancer goes beyond the physical aspect, affecting emotional and mental well-being. Understanding the prevalence and impact of breast cancer is crucial for fostering empathy and support.

### **Conclusion:**

Breast cancer awareness is a shared responsibility. By arming college students with knowledge about risk factors, early detection, and support resources, we empower them to make informed decisions about their health. Together, as a community, we can contribute to the global effort to reduce the impact of breast cancer and promote a healthier future for all. . The session taken by Dr. Shraddha Deshpande was very well appreciated by all the participants and will immensely benefit them in future.
