**Report of the Cultural Committee and WDC Webinar : Acceptability of LGBTQ community post the Supreme Court verdict to decriminalize Sec 377**

**Objectives** –

- Decriminalization has helped in the acceptance by the society and the families of the people. Though there still little bleak in acceptance but it will also improve with time and the further amendments relating to this section and in favor of the community.

Though the judgement has helped the LGBT community in the issue of the discrimination and other aspects but it still needs an anti-discrimination law which would empower them to build productive lives and relationships as there is still petitions which are for the legalization same sex marriages.

There is still a long road ahead for the transgender people that they need to endure. There will be many challenges in front of them but now after the judgement they will no longer be alone in the fight as the WE, the society will also be there with them.

**Methodology:**

## Feedback Analysis

In this situation of a global health crisis, the virtual system of learning has proved its merits. As the technology advances, this system is here to stay. But, accepting the virtual method doesn't mean rejecting the traditional classroom pedagogy, the convenience and low-cost model of virtual learning.

The virtual learning and classroom lessons have their own importance. In these times of pandemic, virtual learning is more important so that the education of students is not hindered.. They are able to learn new skills and upgrading themselves. Thus, both forms of teachings have their own place.
