ACTION TAKEN REPORT ON FEEDBACK ANALYSIS (AY 2020-21)

The University of Mumbai will promptly receive the suggestions provided through the feedback. Feedback on the curriculum was actively sought and received from key stakeholders, including students, teachers, parents, and alumni. The parameters employed to collect this feedback were carefully selected to enable an analysis that would highlight the strengths of the curriculum for further development and identify weaknesses for the implementation of remedial measures.

These chosen parameters facilitated an assessment of both the general and discipline-specific characteristics of the curriculum. The results of the analysis of stakeholder feedback on the curriculum have been communicated to the Management, CDC, and IQAC.

The subsequent steps involved analyzing the identified gaps, followed by the implementation of necessary actions as below:
