## Outcome

- Students will possess a thorough comprehension of the post-Covid paradigm shift in the finance industry.
- Students will learn about the range of job options available in the insurance industry.
- awareness of any modifications to regulations impacting the insurance industry.
- establishing relationships with insurance industry experts in the hopes of finding a job or guidance.

## Feedback Analysis

In this situation of a global health crisis, the virtual system of learning has proved its merits. As the technology advances, this system is here to stay. But, accepting the virtual method doesn't mean rejecting the traditional classroom pedagogy. The convenience and low-cost model of virtual learning.

The virtual learning and classroom lessons have their own importance. In these times of pandemic, virtual learning is more important so that the education of students is not hindered. They are able to learn new skills and upgrading themselves. Thus, both forms of teachings have their own place.
