Topic: "Angel Investment and Venture Capital Funding Opportunity for Early Stage"

Guest Speaker: Mr. Vinit Jain - Founder, Antennae Ventures

Mode: Google Meet

Link: https://meet.google.com/yyi-rzeu-xxd

The Research, Innovation, Incubation and IPR Cell in association with ICC organised a virtual session on 9th August 2023, at 11:00 AM, online on "Angel Investment and Venture Capital Funding Opportunity for Early Stage." The guest speaker for the session was Mr. Vinit Jain, the founder of Antennae Ventures, a prominent figure in the investment and entrepreneurship landscape.

Ms. Nitisha Bhandari commenced the session by extending a warm welcome to all attendees and introducing the guest speaker, Mr. Vinit Jain. She highlighted Mr. Jain's remarkable journey as an entrepreneur and investor, underscoring his significant contributions to the startup ecosystem. As the founder of Antennae Ventures, Mr. Jain's expertise in angel investment and venture capital funding added immense value to the session.

Mr. Jain initiated the session by providing a comprehensive overview of angel investment and venture capital funds. He emphasized the significance of these funding sources for early-stage startups and their role in nurturing innovation and business growth. He elaborated on the key differences between angel investors and venture capitalists, shedding light on their investment strategies, expectations, and decision-making processes.

Mr. Jain engaged in an interactive discussion with young entrepreneurs attending the session. He addressed their queries, concerns, and misconceptions related to securing funding for their startups. Through real-world examples and anecdotes, he highlighted the importance of a compelling business pitch, a solid business model, and a clear vision for success in attracting investor interest.

In a gesture of support for the budding entrepreneurial talent, Mr. Jain announced an exciting opportunity during the session. He revealed that Antennae Ventures would be offering an internship opportunity to one deserving student among the attendees. The internship aims to provide practical insights into the world of investment and entrepreneurship.

Additionally, Mr. Jain also announced a unique funding opportunity for one fortunate student entrepreneur. Antennae Ventures would evaluate business proposals from interested students, and the most promising venture would be offered funding to kickstart their entrepreneurial journey.

The session concluded with a heartfelt expression of gratitude. Ms. Jinal Maam, representing the organizing team, extended a vote of thanks to Mr. Vinit Jain for sharing his expertise and

insights. She also thanked Dr. Vaishali Kothiya for her role in making the session a success and the participants for their active engagement and enthusiasm.

Objectives of the Webman

- To educate participants about the concept of angel investment and venture capital,
 captaining their roles in funding early-stage startups and the differences between the two.
- To provide participants with insights into the current funding landscape for early-stage startups, including trends, challenges, and opportunities.
- To help attendees understand the potential benefits and risks associated with angel investment and venture capital funding, enabling them to make informed decisions.
- To offer guidance to early-stage startups on how to prepare themselves for seeking angel investment or venture capital funding, including pitching, valuation, and due diligence.
- To introduce participants to the various support ecosystems available for startups, including incubators, accelerators, and mentorship programs that can enhance their chances of success.

Outcome of the Webinar

- Students gained a deeper understanding of angel investment and venture capital, including their differences, benefits, and risks, leading to informed decision-making.
- Students become more aware of the funding opportunities available for early-stage startups, enabling them to explore alternative sources of capital.
- Got an opportunity to connect and build valuable relationships with Entrepreneurs, angel investors, venture capitalists, and experts potentially leading to collaboration and partnerships.
- Student Startup founders and investors will apply the lessons learned from the webinar
 to refine their strategies, leading to improved business outcomes and investment
 decisions.

Please rate the following content of the webinar according to your satisfaction level.

Did you gain new knowledge participating the webinar? 68 responses

Do you think you can apply what you learned in this webinar? 68 responses

Interpretation:

- Information delivery: Satisfaction levels are fairly positive, with 60% satisfied, 35% neutral, and 5% unsatisfied. This suggests that a majority of participants found the information delivery satisfactory.
- Subject presentation: The subject presentation received good feedback, with 66% satisfied, 26% neutral, and 8% unsatisfied. Most participants seem to have found the way the subject was presented to be effective.
- The pace of the webinar: Feedback about the pace is slightly mixed, with 42% satisfied, 47% neutral, and 11% unsatisfied. This indicates that while some participants were comfortable with the pace, others might have found it too fast or slow.
- The duration of the webinar: The duration of the webinar received positive feedback, with 71% satisfied, 24% neutral, and 5% unsatisfied. This suggests that most participants were comfortable with the length of the webinar.
- Trainer's knowledge: The trainer's knowledge was highly praised, with 92% satisfied, 5% neutral, and 3% unsatisfied. This indicates that participants found the trainer well-informed and knowledgeable.
- Gaining new knowledge: The majority of participants (89%) gained new knowledge from the webinar, which is a positive outcome.
- Application of learning: About 70% of participants believe they can apply what they learned from the webinar, while 15% are unsure and 15% don't think they can apply it. This suggests a reasonable level of perceived practical value in the content.
- Best thing about the webinar: Positive aspects mentioned include information clarity, helpfulness, good presentation, and the acquisition of new knowledge. This indicates a wellreceived overall experience.
- Suggestions: Participants' suggestions for improvement include a desire for shorter and more focused content, real-world examples, and involving individuals who have successfully applied the webinar's content.

Overall, the feedback showcases a generally positive response to the webinar, particularly regarding the trainer's knowledge and the acquisition of new information. The suggestions provided can serve as valuable insights for enhancing future webinars to meet participants' preferences and needs.
