Report on

Webinar on Research Methodology: Methods for Data Collection and interpretation

On 19th March, 2021, our institution had the privilege of hosting a highly informative and engaging webinar on the topic of "Methods for Data Collection, Analysis, and Interpretation." The webinar was led by Dr. Arti Sharma, Associate Professor at Viva Institute of Management and Research. The objective of the webinar was to provide our faculties with insights into various methods and approaches to enhance their research endeavors.

The webinar was divided into several segments, each of which contributed to our understanding of effective methods for data collection, analysis, and interpretation in research.

Dr. Sharma began by discussing various data collection techniques, emphasizing the importance of selecting the most appropriate method for the research question. She covered both qualitative and quantitative methods, providing examples and practical insights.

The speaker also introduced the participants to data analysis, highlighting the significance of using appropriate software tools, coding, and thematic analysis. She also discussed statistical techniques relevant to research.

Dr. Sharma stressed the critical role of interpretation in social sciences research. She discussed strategies for ensuring the validity and reliability of findings, and the importance of grounding interpretations in theory.

An essential aspect of the webinar was the discussion of ethical considerations in research. Dr. Sharma emphasized the need for ethical data collection, analysis, and interpretation and provided practical guidance on ethical research practices.

Conclusion

The webinar concluded with a vibrant question and answer session in which faculty members had the opportunity to seek clarifications and further insights from Dr. Sharma.

The webinar on "Methods for Data Collection, Analysis, and Interpretation" was a resounding success. The knowledge and insights provided during the session will undoubtedly empower our faculties to conduct high-quality research.
