Topic: "Empowerment through Knowledge: Menstrual Hygiene and Personality Development"

Date: 30th July, 2024

Resource Person: Ms. Mishika Dhakan

Time: 10.30 Am onwards

Venue: College Auditorium

Q.1 Would you like to receive such hampers in future?

77 responses

Figure No.: 1.1

Interpretation:

A vast majority of the respondents (97.4%) are in Favor of receiving similar hampers in the future. This indicates a strong positive reception. The minimal percentage (2.6%) who responded "No" suggests that there are very few participants who might not find the hampers valuable or necessary. The overwhelmingly positive response (97.4%) indicates that the hampers are well-appreciated and meet the expectations of most recipients. This suggests that continuing this practice in the future would likely be well-received.

Q. 2. Please rate your satisfaction with this session.

Figure No.: 1.2

Interpretation:

The bar charts reflect that the session was highly appreciated by the participants, with a significant majority expressing satisfaction across various aspects. Approximately 35 to 40 participants rated the content, event structure, and the speaker's knowledge as "Very Satisfied." The "Inspiration and Motivation" aspect was particularly well-received, with around 40 participants expressing strong satisfaction. Another 20 to 25 participants were "Satisfied" across these categories. However, a small minority, roughly 3 to 5 participants, indicated neutral or dissatisfied responses, particularly in the content relevance and event organization aspects. Despite these few less enthusiastic ratings, the overall feedback suggests that the session was effective and well-organized, meeting the expectations of most attendees. The high levels of satisfaction indicate that the session content was engaging and that the speaker was knowledgeable, though there may be room for minor improvements based on the neutral or dissatisfied feedback from a few participants.

Q. 3. How would you rate the diversity and expertise of the Speaker person?

Figure No.: 1.3

Interpretation:

The bar chart provides an analysis of the ratings for various aspects of a session, including the diversity and expertise of the speaker. The category "The Speaker" shows that a significant number of participants rated the speaker highly, with the majority of ratings falling in the "High" and "Very High" categories. This indicates that most attendees found the speaker to be both diverse and knowledgeable in their presentation. A smaller, yet notable, portion of the audience rated the speaker as "Moderate," suggesting that while many were impressed, a few found the speaker's expertise or diversity to be adequate but not exceptional. The "Low" and "Very Low" ratings are minimal, showing that dissatisfaction with the speaker was rare. Overall, the data suggests that the speaker was well-received, with strong appreciation for their expertise and diversity in the session.

Q. 4 "Has this session on " Empowerment through Knowledge: Menstrual Hygiene and Personality Development" motivated you to consider these fields more seriously for your future endeavour's

77 responses

Figure No.: 1.4

Interpretation:

The pie chart reflects the participants' responses to whether the session on "Empowerment through Knowledge: Menstrual Hygiene and Personality Development" motivated them to consider these fields more seriously for their future endeavors. An overwhelming majority, 93.5%, responded with "Yes," indicating that the session had a significant and positive influence on their perspectives. This strong affirmative response suggests that the session was highly impactful in raising awareness and inspiring participants to think more deeply about these important topics. A small fraction of the respondents, represented by "Maybe," are still uncertain but open to the possibility of pursuing these areas further. The absence or near absence of "No" responses indicates minimal resistance or disinterest, demonstrating the session's overall success in engaging and motivating the audience.
