### **CHOICE BASED CREDIT SYSTEM**

BA in Multimedia and Mass Communication (BAMMC) (Choice based)

Semester -III, IV, V and VI revised Syllabus to be sanctioned and implemented from

June 2020-21 in progressive manner.

### **PROGRAM OUTCOME**

- 1. The program considers media industries and their relationship to culture and society, and the understanding of how communication works. The program emphasizes the development of critical thinking, professional writing skills and effective oral communication,
- 2. The Communication and Media Studies major prepares students for a wide variety of careers in business and industry, advertising, public relations and journalism, or advanced study
- 3. This program will equip the learners with professional skills essential for making career in Entertainment industry, Cinema, Television, OTT Platforms, social media platforms etc.
- 4. Students would demonstrate the ability to apply rhetorical principles in a variety of creative, cinematic, organizational, professional and journalistic venues.
- 5. Knowledge, skills, and values that prepare them for future careers in our interconnected society, whether in mass media or advanced study
- 6. Learners would develop a global awareness of political, social and corporate issues influenced by communication sensitivity and skills.
- 7. Learners will understand mass media as a system of interrelated forces, including historical foundations, technological advances, economic dynamics, regulatory constraints, and ethical concerns.
- 8. This programme will also give them an improved sense of self-confidence and self-efficacy and an awareness of their responsibilities as professionals in their field
- 9. Learners will be able to create and design emerging media products, including blogs, digital audio, digital video, social media, digital photography, and multimedia.
- 10. They will be better equipped to grasp the complex relationship between communication/media theories and a diverse set of individual, social, and professional practices.
- 11. Learners will understand the underlying philosophical assumptions of, and be able to apply, communication research methods to address a range of media texts and audiences, production and technological practices, and relevant social issues.
- 12. Learners will comprehend the foundations, process, and practices of writing for and about the media, and demonstrate proficiency in writing across platforms.
- 13. Learners will be able to conceptualize, design, and produce one or more works in media based on effective principles and practices of media aesthetics for a target audience.
- 14. Learners will acquire the knowledge and skills required to pursue a career in the specialization of their choice.

### 301-4

Program	BAMMC
Year	SYBAMMC
Semester	III
Course:	MOTION GRAPHICS and VISUAL EFFECTS
Paper	ELECTIVE 01 (AEEC-4)
Course Code	BAMMC MGV-3014
Total Marks	100 (75:25)
Number of Lectures	48

### Brief:

The new generation is energetic and seeks energy in every experience. We see animation and visual effects in almost every television program including news and financial market channels. Sports channels are foremost in using various visual effects for updates as well as keeping energy intact. The future is around new experience of video viewing and the media learners will be part of future shape of media.

### Course Outcome;

This course is designed to introduce the student to the art and science of visual effects for broadcast and digital filmmaking. Topics covered include the visual effects workflow, video technology, image processing, creating mattes, tracking, and compositing.

- 1. Understand the difference between a visual effect and a special effect.
- 2. Determine when to choose whether to create a visual effect or a special effect and determine when the two techniques can work together.
- 3. Understand basic image processing techniques.
- 4. Pull mattes using various image processing techniques including Chroma-keying
- 5. Track motion data using various techniques.
- 6. Describe and use the compositing process and identify major applications used in industry. Develop a visual effects pipeline for integration in the filmmaking process.

COURSE CODE	COURSE NAME and DETAILES SYLLABUS

Program	BAMMC
Year	SY BAMMC
Semester	III
Course:	Introduction To Photography
Paper	04 (DSC-C3) CORE VII
Course Code	BAMMC IP-304
Total Marks	100 (75:25)
Number of Lectures	48

### **Brief:**

The world cannot be imagined without images. Image is inseparable part of media. "Picture speaks thousand words." The course is designed to explore "how to make picture speak thousand words.

### Learning Outcome: Lectures: 48

- 1. To introduce to media learner the ability of image into effective communication.
- 2. To help the learner understand that media photography is a language of visual communication and is far beyond just point and shoot fun moments.
- 3. To practice how picture speaks thousand words by enlightening the learner on how.
- 4. To develop the base of visualisation among learners in using pictures in practical projects.
- 5. To help learner work on given theme or the subject into making a relevant picture or photo feature.

# 305

303	
Program	BAMMC
Year	SY BAMMC
Semester	III
Course:	Film Communication-I
Paper	06 DRG
Course Code	BAMMC FCO-305
Total Marks	100 (75:25)
Number of Lectures	48

### Brief:

The media cannot be experienced without cinema. Movies are inseparable from social life today. Contribution of films are in all fields of mass communication whether Journalism, Public Relations, Advertising or pure entertainment. Cinema has larger impact on masses as well as all classes. The course is designed to understand cinema rather than only seeing it.

Cours	Course Outcome:			
1.	To inculcate liking and understanding of good cinema.			
2.	To make students aware with a brief history of movies; the major cinema movements.			
3.	Understanding the power of visuals and sound and the ability to make use of them in effective communication.			
4.	Insight into film techniques and aesthetics.

### **Brief: Digital workflow:**

Since the introduction of computers in media every process of image editing and film editing is computerized. Various softwares –beginners to professional- are developed and today software knowledge equals literacy in media. Image, Audio and Video in digital format are easy to share and store as well as saved to multiple places. The knowledge of software has become extremely essential to survive and grow in media today.

### Course Outcome:

- 1. To help learners make media industry ready. This will help learners to be aware of the minimum requirement of the software when stepping out in the industry.
- 2. To introduce the media softwares to make the learners understand what goes behind the scene and help them choose their stream.
- 3. To prepare learners skilled enough for independency during project papers in TY sem VI.
- 4. To help learners work on small scale projects during the academic period.

# Syllabus Sub-Committee

- Prof. Arvind Parulekar: (Convener)
   Prof. Izaz Ansari: (Subject Expert)
- 3. Mr. Ashish Gandhre (Industry Expert)
  Internal Exercise:

The objective of internal exercise is to help them identify job opportunities in visual effects in the broadcast and film-making industries.

Sr. No.	Project/Assignment	Reason/Justification
01	Montage	Creating a Television News Broadcast with all its elements. This project helps with working with multiples elements and layers simultaneously. Shows the importance of audio elements and uses various techniques and effects.
02	Show Reel	Creating a project with all the tools, techniques and methods learnt in <b>Multimedia 1</b> . This project can be used as portfolio for aspiring VFX artists.

#### Note:

402

The course Motion Graphics and VFX is associated with Film Communication as well as Television Production of Radio and TV. Also, it is associated with Web designing and shall help learner create eye catching after effects in his own website.

Program	BAMMC
Year	SYBAMMC
Semester	IV
Course:	Writing and Editing for Media
Paper	CORE VIII DSC D1

# Course Code BAMMC WEM-402 Total Marks 100 (75:25) Number of Lectures 48

#### **COURSE OUTCOME**

- 1. Provide the ability to understand writing styles that fit various media platforms.
- 2. It would help the learner acquire information gathering skills and techniques.
- 3. On completion of this course, students will be able to understand similarities and differences in writing for all forms of media including internet and digital.
- 4. The learner will gather knowledge of different news and copy formats along with appropriate style-sheets and layout.
- 5. The learner will imbibe the importance of writing clearly, precisely and accurately for different types of audiences
- 6. Provide acquire basic proficiency in proof-reading and editing.

#### **Brief: Digital workflow:**

Since the introduction of computers in media every process of image editing and film editing is computerized. Various soft wares –beginners to professional- are developed and today software knowledge equals literacy in media. Image, Audio and Video in digital format are easy to share and store as well as saved to multiple places. The knowledge of software has become extremely essential to survive and grow in media today.

#### **Course Outcome:**

- 1. To help learner be media industry ready. This will help learners to be aware of the minimum requirement of the software when stepping in the industry.
- 2. To introduce the media soft wares to make the learner understand what goes behind the scene and help them choose their stream.
- 3. To prepare learner skilled enough for independency during project papers in TY sem.VI.
- 4. To help learners work on small scale projects during the academic period.
