PIONEERING EDUCATION
SINCE 1992

Notice No: SLRTDC/23-24/

Date: 29th Nov, 2023

NOTICE

This is to inform all the students that **Green Campus Committee** is organising a session on “**National Energy Conservation Day**” on the 14th Dec, 2023 in the college campus at 10: 00 AM.

Session Objective:

1. To promote awareness among students regarding importance of energy conservation
2. To educate students about practical energy saving techniques and methods that can be implemented in daily life.
3. To foster a culture of responsible energy usage among students.

Report on "National Energy Conservation Day" (Green Campus Committee and Green Club)

Objective: D

- The primary objective of the session was to increase awareness among participants about the importance of energy conservation.
- To educate on the environmental impact of energy consumption and the role individuals can play in conservation efforts.
- To discuss and share actionable tips that individuals can easily incorporate into their daily lives, both on the college campus and at home.

Methodology: Poster Making and Discussion

Time: 10:00 AM onwards

Venue: College Campus

In a dedicated effort to champion sustainability, the Green campus Committee observed National Energy Conservation Day on December 14, 2023. The Green Club students, taking a proactive stance, adorned the college with vibrant posters strategically placed across classrooms and common areas. These visuals served as a powerful medium to raise awareness about the imperative need for energy conservation.

The students took the lead in discussing various aspects of energy conservation, shedding light on the environmental impact of excessive energy consumption. Through interactive presentations, they elucidated on simple yet effective strategies to conserve energy in daily life, both at home and in educational institutions. Practical tips were shared, ranging from turning off lights and electronic devices when not in use to adopting energy-efficient appliances.

The pivotal part of the event was the collaborative leadership demonstrated by the Green Club students and Green Campus Committee members. The informative session they led was a blend of expertise and passion, covering topics ranging from the environmental impact of energy consumption to practical tips on energy-efficient practices.

The event, marked by its engaging and participatory nature, succeeded in leaving a lasting impact on the college community. Students not only absorbed valuable insights but also took away a sense of empowerment to contribute actively to the global initiative for energy conservation. The collaborative effort between the Green Club and Green Campus Committee underscored the significance of collective action in addressing environmental challenges.

In essence, National Energy Conservation Day at our college was not just a one-day event; it served as a catalyst for long-term behavioural change towards a more sustainable and energy-conscious

Outcome:

- The participants gained a deeper understanding of the various aspects of energy conservation, including its environmental implications and the practical steps they can take to reduce energy consumption.
- The discussions sparked a sense of responsibility, motivating individuals to implement the learned strategies in their daily lives.
- The session fostered a sense of community engagement and shared responsibility among the participants.

Feedback Analysis:

- Participants provided feedback highlighting the positive and engaging nature of the session. The interactive discussions and practical tips were well-received, creating an atmosphere of enthusiasm and receptiveness.
- Several participants expressed a desire for continued initiatives and workshops on energy conservation.
