Notice No: SLRTDC/23-24/

Date: 23rd Dec, 2023

NOTICE (BCOM, BAF & MCOM Students)

This is to inform you that the BCOM, BAF & MCOM department has organised an industrial visit to **"RO Water Factory and Brick-making Factory"** at Kasarali Village, Vaitarna, Palghar.

Date: 30th December, 2023

Time: 10.00 am onwards

Venue: Kasarali Village, Vaitarna, Palghar District, Maharashtra

Objectives of the visit:

- To provide students with practical insights into the operations and processes of the RO water and brick-making industries.
- To enhance students' understanding of the application of theoretical concepts in a real-world industrial setting.
- To offer exposure to the challenges and best practices in manufacturing and quality control in the water purification and brick-making sectors.

Date: 31st December, 2023

"Report on Small-scale Industrial Visit to RO Water Factory and Brick-making Factory"

Date: 30th December, 2023

Venue: Kasarali Village, Vaitarna, Palghar District, Maharashtra

Organized by: BCom, BAF & MCOM Department

Time: 10 am onwards

Teaching Learning Methods Used: Peer Work, Industrial Visit, Team Work

Objective:

- To provide students with practical insights into the operations and processes of the RO water and brick-making industries.
- To enhance students' understanding of the application of theoretical concepts in a real-world industrial setting.
- To offer exposure to the challenges and best practices in manufacturing and quality control in the water purification and brick-making sectors.

On the morning of December 30th, 2023, students from the BCom, BAF & MCOM departments embarked on an enlightening industrial visit to the RO Water Factory and Brick-making Factory located in Kasarali Village, Vaitarna, Palghar District, and Maharashtra.

The day began with an informative tour of the RO Water Factory, where students witnessed first-hand the intricate processes involved in purifying and bottling drinking water. They were introduced to various stages of water treatment, quality control measures, and packaging techniques. This session not only enhanced their understanding of industrial hygiene standards but also highlighted the importance of quality assurance in consumer products.

Following this insightful experience, the students proceeded to the Brick-making Factory, where they were exposed to the mechanized and manual methods employed in brick production. They observed the raw material preparation, molding, drying, and firing processes, gaining valuable insights into the challenges and innovations within the traditional brick-making industry. The visit emphasized sustainability practices and the adoption of eco-friendly technologies in manufacturing processes.

Outcome:

- Students gained practical understanding of industrial processes in both RO water and brick-making factories.
- Participants learned about stringent quality control measures employed in small-scale industries.
- They observed first-hand the management practices involved in running industrial operations effectively.

Shree L. R. Tiwari Degree College of Arts, Comm. & Sci. Mira Road (East)

Moreover, the visit sparked excitement among the students, who found the opportunity to interact with industry professionals and ask questions particularly rewarding. They highlighted the relevance of such visits in bridging the gap between academia and industry, enabling them to envision future career paths and apply classroom theories in practical scenarios.
