Approved by Government of Maharashtra & Affiliated to University of Mumbai

Date: 3rd October 2023

NOTICE

All students are hereby informed that the **Department of Lifelong Learning and Extension (DLLE)**, in collaboration with the **Green Club Committee**, will be organizing an **E-Waste Management** activity from **11th October 2023 to 18th October 2023** at the Shree L. R. Tiwari Degree College Campus.

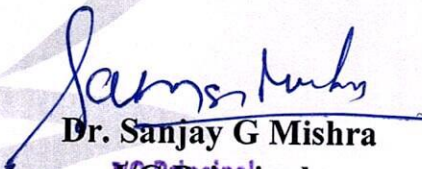

The E-Waste Management activity aims to address the growing environmental challenges associated with electronic waste (e-waste). This initiative will focus on promoting responsible disposal practices, raising awareness, and implementing effective recycling strategies to minimize the adverse impacts of **e-waste on the environment and public health**.

All students are encouraged to participate actively in this important initiative. You can contribute by bringing your old and unused electronic devices to the designated collection points on campus. This is an excellent opportunity to practice environmental responsibility and contribute to a greener future.

Let's work together to make a positive impact on the environment!

Event: E-Waste Management

Date: 11th October 2023 to 18th October 2023

Venue: Shree L. R. Tiwari Degree College Campus, Mira Road (East)

The Department of Lifelong Learning and Extension in Collaboration with Green Club successfully completed "E-Waste Management" activity from 11th October 2023 to 18th October 2023 at Shree L. R. Tiwari Degree Campus.

Introduction: E-waste management activity is conducted to address the growing environmental challenges associated with electronic waste (e-waste). The activity aimed to promote responsible disposal practices, raise awareness, and implement effective recycling strategies to mitigate the adverse impacts of e-waste on the environment and public health. E-waste is discarded electronic devices. It includes items like computers, TVs, and mobile phones. These items often contain harmful substances, which can pollute the environment.

Objective: The primary objectives of the e-waste management activity included:

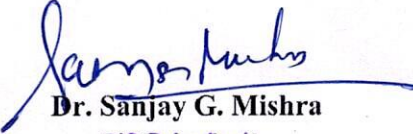

- Promoting awareness about the environmental impact of e-waste.
- Facilitating the collection of e-waste through designated collection points.
- Implementing safe and sustainable recycling processes.
- Collaborating with stakeholders, including government agencies, NGOs, and businesses.

Outcome: The management of the electronic trash exercise illustrated the value of teamwork in tackling the problems presented by electronic waste. Through raising awareness, setting up collection locations, and encouraging recycling programs, the effort helped to lessen the negative effects of e-waste on the environment and to advance sustainable practices for coming generations. Maintaining the long-term viability of e-waste management programs requires constant work. Positive outcomes from the e-waste management initiative included:

- A greater knowledge and comprehension of e-waste issues among the general public.
- Considerable amounts of e-waste gathered from approved collection locations.
- E-waste recycling that is successful in lowering its environmental impact.
- Improved relationships with stakeholders, encouraging further cooperation.
