### About the Hackathon

At *Checkpoint II – The Ascent*, students took their learning a level higher - moving from foundational coding to **design and creation**. This stage focused on bridging analytical thinking with visual problem-solving through digital design and prototyping. Participants explored product visualization, UI/UX design, and teamwork as they transformed ideas into tangible solutions.

#### Key Focus Areas included:

- Product visualization using **Figma**
- Fundamentals of **User Interface and Experience Design**
- Collaborative prototyping and live presentation
- Translating conceptual ideas into real, usable interfaces

Prior to the hackathon, edept organized a **Figma Workshop** to equip students with the skills to create digital prototypes and design solutions effectively.

### Key Highlights

#### Participation & Energy

- Over 64 students participated in 26 teams from various streams.
- Students worked on real-life problem statements that combined design and logic.

- Jury members and edept facilitators guided teams through ideation and presentation stages.

## Structure of the Hackathon

- **Round 1:** Individual Round
- **Round 2:** The Main Hackathon
- **Round 3:** The Presentation

## Winners

The winners were determined by their cumulative score across all rounds, and one outstanding individual performer was also recognized.

**Winning Team:** *Tech Titans*

**Members** – Aditya S., Prince Y., Aaron M., Sahil K.

**Outstanding Individual Performer:** *Ms. Suhana Mullani*

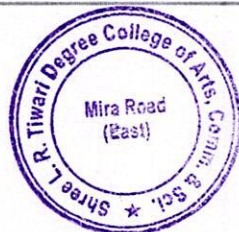

Winning teams received certificates and Edept merchandise from the Edept team.

## Student Feedback

Participants shared that *Checkpoint II* was “an inspiring blend of creativity and technology.” They appreciated the opportunity to work hands-on with Figma and experience how design thinking translates to real-world problem solving. Several students expressed interest in advancing to the next checkpoint for further learning.

## Outcome of the Event

The hackathon helped students move beyond coding to creation — developing skills in visual communication, collaboration, and rapid prototyping. It strengthened their design literacy and confidence to present solutions professionally, aligning perfectly with edept’s experiential learning mission.
