NOTICE

(NSS Unit in collaboration with BCOM Department and MCOM Department)

This is to inform students that the NSS Unit in collaboration with the B.Com Department and M.Com Department has organized an **Industrial Visit to the RO Water Purification Factory and Brick-Making Factory at Kasarali Village, Vaitarna, Palghar.**

Date: 26th December, 2025

Time: 10:00 AM

Venue: Kasarali Village, Vaitarna, Palghar

Objectives of the Visit:

- To provide students with practical exposure to the functioning of small-scale rural industries.
- To help students understand the production process and operations involved in RO water purification and brick manufacturing.
- To connect academic concepts with real-world industrial practices and promote entrepreneurial thinking.

All **B.Com and M.Com students** are encouraged to participate in the visit and gain valuable experiential learning.

Report on Industrial Visit to RO Water Purification Factory and Brick-Making Factory at Kasarali Village

Date of Visit: 26th December 2025

Time: 10:00 AM

Organized by: NSS Unit in collaboration with B.Com Department and M.Com Department

Venue: RO Water Purification Factory & Brick-Making Unit, Kasarali Village, Vaitarna, Palghar

Participants: B.Com and M.Com students attending the NSS Camp

No of Students: Male: Female: Total:

Introduction

An industrial visit was organized by the NSS Unit in collaboration with the B.Com and M.Com Departments as part of the NSS Rural Engagement Activity. The visit was conducted on 26th December 2025 at Kasarali Village, Vaitarna. The objective of the visit was to provide students with practical exposure to the functioning of small-scale rural industries and to help them understand their contribution to the local economy.

Objectives of the Visit

- To provide students with practical insights into the functioning of small-scale rural industries and their role in local development.
- To help students understand the production process and operational aspects involved in RO water purification and brick manufacturing.
- To connect academic concepts with real-world industrial practices and encourage entrepreneurial thinking among students.

Description of the Visit

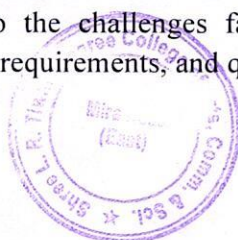

The visit included two important small-scale industrial units located in Kasarali Village, Vaitarna.

1. RO Water Purification Factory

Students observed the water purification process, including filtration, purification, and packaging of drinking water. The factory staff explained how modern purification techniques are used to ensure safe and clean drinking water for the local community. Students also learned about the operational processes and quality control measures involved in the water purification industry.

2. Brick-Making Factory

The group visited the brick manufacturing unit, where students observed the complete process of brick production. The process involved preparation of raw materials, molding, drying, and baking of bricks. Students gained insight into the challenges faced by small-scale rural industries, including production management, labor requirements, and quality control.
